Over \$270,000 in dividends returned to ChamberChoice participants

Penn National Insurance has announced a one percent dividend for the fourth program year of the ChamberChoice Business Insurance program. Chamber members, who placed their insurance coverage with Penn National Insurance during the 2014/2015 program year and remained chamber members and policyholders through the end of the program year, will receive a dividend equal to one percent of their total premium. Over the past four years, Penn National Insurance has returned an average of 7% in dividends and returned to the business community and region over \$3.6 million in total.

An important aspect of this group insurance program is preventing loss and controlling claims costs. Because dividends are based on the group's collective loss experience, a business that may have had a significant loss may still be eligible to receive a dividend.

The program is sold exclusively through local, independent agents who can offer chamber members a variety of coverages and pricing on property and casualty insurance, including businessowners, commercial auto, general liability, inland marine and workers' compensation. Dividends are paid on all of these coverages. In addition, through safety consulting, Penn National Insurance and local independent insurance agencies encourage member businesses to develop safety practices to substantially reduce or eliminate workplace injuries.

The Penn National Insurance program is just one of many benefits of chamber membership. For more information, contact your local Chamber for a list of member agents.
