

Health Insurance Solutions for Large Employers

The Affordable Care Act (ACA) requires employers with 50 or more full-time or full-time equivalent employees in the preceding calendar year to offer coverage to full-time employees and dependents.

ChamberChoice identifies how the ACA applies to your situation and defines your coverage and compliance requirements, including IRS reporting.

Our team at JRG Advisors offers unparalleled consulting, service, products, and administration for Chamber Members, and evaluates the options to achieve your business goals.
